Dynamic and results-oriented Web Developer with 5 years of experience in designing and building web applications. Proficient in both front-end and back-end development, specializing in HTML, CSS, JavaScript (including AJAX & Vue.js), and PHP (vanilla PHP and Laravel). Skilled in Agile development methodologies, responsive design, RESTful API development, and database management. Committed to delivering high-quality software solutions through effective collaboration and innovative problem-solving.

Skills:

- Front-end Technologies: HTML, CSS (Tailwind CSS & Bootstrap), SASS, JavaScript (including AJAX, Vue.js, and Vanilla JavaScript)
- Back-end Technologies: PHP (vanilla PHP and Laravel)
- Design Tools: Adobe Photoshop CC, Adobe Illustrator, Adobe XD, Figma
- Other Technologies: Python Django
- Database Management: SQL, NoSQL (Postgres, MongoDB), MySQL
- Version Control: Git
- Agile Development
- Responsive Design
- RESTful API Development
- Testing and Debugging

Professional Experience:

Full Stack Developer

Africa Economic Forum

[City: Abuja, FCT]

Date: 2022 - 2024

- **AEF Events Portal:** Developed an integrated online events platform for the Africa Economic Forum, streamlining event management processes including creation, planning,

email notifications, attendee registrations, and payment processing. [Link to AEF Events Portal](#)

- **DevJobsAfrica:** Developed an innovative job portal, specifically tailored to showcase developmental opportunities across the African continent. This comprehensive platform empowers users to effortlessly access a diverse array of job listings, register for updates, and seamlessly apply for positions. Additionally, it provides employers with a streamlined mechanism to seek out individuals possessing specific skill sets for employment opportunities.
- **VSA (Voluntary Service Africa):** Developed a dynamic online platform designed to unite volunteers for impactful projects organized by the Africa Economic Forum across the African continent. With an extensive network boasting over 1000 registered volunteers, VSA serves as a pivotal hub for individuals passionate about contributing to the advancement and development of Africa through voluntary service initiatives.
- **AEFID Website:** Developed AEF International Development website, the premier international projects and development assistance implementation partner of the Africa Economic Forum (AEF). An organization committed to advancing sustainable development across Africa through strategic partnerships, cutting-edge solutions, and capacity-building programs. [Link to AEFID Website](#)
- **AEF Website:** Redesigned and rebuilt the organization's main website, accommodating up to 25 different affiliate groups and organizations. Integrated event information seamlessly, overhauled the membership platform, enhanced its functionality, and implemented community features for communication and collaboration among members. [Link to AEF-Website](#)

Additional Projects: Built 10 websites for various AEF subgroups, focusing on critical and innovative systems to address specific business needs. These projects highlight my ability to deliver high-quality, impactful solutions tailored to diverse requirements. A showcase of the websites I developed for the Africa Economic Forum is available upon request.

Full Stack Developer

Nader Tech

[City: Abuja, FCT]

Date: 2021 - 2022

- **Coin Harbour:** Developed the website for Coin Harbour, a pioneering cryptocurrency investment firm. Crafted a sophisticated website with seamless payment integrations and integrated APIs for real-time monitoring and evaluation of cryptocurrencies.

- **GBTO (Global Binary Trade Option):** Developed the investment platform for GBTO, offering a range of investment packages to registered users. Facilitated user registration and sign-up processes, ensuring a seamless experience. Implemented diverse investment packages, each offering returns on investments within specified timeframes.
-

Personal Project Experience:

1. Usefully

- Developed a website aimed at connecting users to useful AI websites, allowing users to suggest and add their preferred AI websites. Implemented a CMS and an admin panel for managing website content. (Still in progress)
- [Link to Website: Usefully](#)

2. NAAS Uniabuja

- Designed and developed a web portal for the Faculty of Agriculture at Uniabuja, providing students with access to course materials, faculty history, basic information, and handbook downloads. Implemented a CMS for dynamic content management.
- [Link to Website: NAAS Uniabuja](#)

3. Gravics Designs

- Created a personal website with a CMS focusing on providing cutting-edge digital solutions. Provides services including Website & Mobile application development, Digital Marketing, Custom & Turn-key software creation, and IT implementation and support.

4. Trade Eclipse

- I developed an advanced online trading and investment platform that provides users with a range of diverse trading opportunities. The platform features intuitive dashboards for both users and administrators, offering real-time analytics, performance insights, and seamless update tracking for an enhanced trading experience.
